Acoustic Baffles

Transform your space with Zintra Baffle System, Canyon design. Our high-performing baffles offer flexible and dynamic acoustic control, perfect for enhancing spacious environments

✓ **Acoustic**

✓ **Bleach Cleanable**

✓ **Easy Clean**

✓ **Easy Install**

## Description

A modern solution for acoustic control, Zintra Baffles are a prefabricated, ceiling mounted system. Showcasing Zintra's flexible characteristics and offering superior acoustic control, Zintra Acoustic Baffles are an innovative replacement to traditional mineral fibre lay systems.

By exposing the ceiling, Zintra baffles create an open and airy atmosphere while efficiently mitigating noise levels.

### Canyon

Embodies its namesake, resembling the rugged terrain of a canyon. Its textured pattern exudes a natural and earthy vibe, adding depth and character to your space.

Easy to assemble, easy to install and available in a large array of designs, baffles are ideally suited to large noisy spaces in educational institutions, shopping centres, restaurants, and airports.

### Available in 11 designs

Bolt | Canyon | Gorge | Individual | Louvre | Quarter | Ridge | Square | Swell | V-Fold | Wave

Combining a dynamic aesthetic appeal and acoustic performance these systems are supplied ready to install with minimum fuss. A great advantage of the vertical blades is the increased surface area that is presented to the room resulting in a greater absorption of sound compared to flat panels.

Zintra Baffles present a modern and budget-friendly solution for cultivating a tranquil and efficient workspace.

Choose from one of our 12 vibrant powdercoat colors (additional charge)

## Care Instructions

Vacuum to remove dust.

Dab Zintra with a damp clean cloth and mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth.

For difficult stains, use a solution of household bleach (10% bleach / 90% water). To remove the bleach, repeat using a clean, water dampened cloth, then pat dry.

Always test in an inconspicuous area first and if you don't see the expected results, contact us.
