These tactile three-dimensional panels create an immersive experience that transforms the ambiance of any space. The warm heather of Zintra softens the environment, ensuring that even the most austere spaces feel inviting.

They provide more than just noise absorption—they tell a story with every surface. Their intricate patterns and dynamic visual effects shift with perspective, adding depth and warmth to any room, making conversations flow effortlessly without echoes or disturbances.

Corduroy Fine

The delicate counterpart to the classic Corduroy design, offers a refined 20mm rib, compared to the broader 40mm rib of its partner. Use individually or combine these two designs to create a rich, layered effect, adding depth and sophistication to any space.

The finer ribbing of Corduroy Fine introduces a subtle yet impactful tactile quality, enhancing the warmth of Zintra's acoustic panels. Inspired by the timeless elegance of the Corduroy textile, this design infuses interiors with a sense of quiet luxury, making it the perfect choice for spaces that demand both acoustic performance and visual appeal.
