<b>DESCRIPTION / FEATURES</b>	<p>Combining undulating bursts of lines, thoughtfully overlaid to a traditional herringbone base. Organic Etch Twitch makes creative use of columns and short parallel lines, where lines in one column slope in one way and lines in adjacent columns slope the opposite. The design is further enhanced with the addition of vertical lines, deepening the textural element of the design.</p> <p>Available in the full 24-color range, choose from complementary natural tones like Linen, Pebble, and Slate, or be brave and make the designs pop with the vibrancy of Sunshine, Ochre or Cobalt.</p> <p>Lightweight and easy to cut Organic Etch is the perfect acoustic alternative to traditional commercial wallcoverings.</p>
