DESCRIPTION / FEATURES	Sticks Transition Portrait is a purpose designed transition piece that seamlessly joins Bundles at inside corners from walls to ceilings. Zintra Sticks is a range of fabricated acoustic sticks supplied ready to install as a complete system or as individual lengths. Available in 108” (2745mm) lengths, the Zintra Sticks range includes two stick profiles that can be installed to walls or ceilings in your choice of landscape or portrait direction. Purpose designed transition pieces that seamlessly join the systems at inside and outside corners are also avaialble. Zintra Sticks is a cost effective, light weight and easy to install solution that works with the complete range of Zintra Acoustic Plain and Timber colors and delivers an NRC of 0.9.

REFINISHABLE	No
CARE INSTRUCTIONS	Remove spills immediately using damp, clean cloth. Dab Zintra with a clean, soft white cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. Avoid using wax polishes, solvents or concentrated abrasives. For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently. Repeat using only a clean, water dampened cloth to remove bleach concentration then pat dry with a lint free cloth. Always test in an inconspicuous area first. If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.
