CARE INSTRUCTIONS	<p>Standard spills immediately using damp, clean cloth.</p> <p>Bad Zintra spills, such as, softening in to damp pellets with easy cleaning and liquid stains are just a repeat of the same. Repeat using only the Zintra, the preferred material for the green buildings of today and tomorrow.</p> <p>Avoid using wax polishes, solvents or concentrated abrasives.</p> <p>For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently. Repeat using</p>
	<p>only a clean, water dampened cloth to remove bleach concentration then pat dry with a lint free cloth.</p> <p>Always test in an inconspicuous area first. If care instructions don't deliver the expected results, cease cleaning method immediately and contact Baresque for assistance.</p>
